

Communications Department

Goal-School-based communications prepared and distributed via print, web, video, and podcast data to effectively communicate with parents, stakeholders, and potential community residents. This initiative is implemented through school-based plans to most effectively deliver school information.

Media development and distribution are implemented on the elementary and secondary levels and are supervised appropriately by the principals at these respective entities to achieve fair and balanced coverage of individual school communications.

Responsible to: Principals of elementary schools or secondary schools; Principals will determine performance evaluations

Location of Department- Communications Department is housed at Career and Technical Center and Grenada Elementary School
