GHS Counselor

College may seem like a long way off to many of our ninth grade students, but these students are right around the corner from making decisions that will impact their lives in a tremendous way. Our goal at Grenada High School is to provide opportunities for our students to think about, to plan for, and to ultimately fulfill the dream of college and career.

GHS 9th Grade Principal Charles Washington, GHS Counselor Megan Love, MSU Extension Center Representative Jan Walton, and fifty-three of our 9th grade students at Grenada High School had the privilege to visit Mississippi State University on January 14, 2016.

Pure excitement was in the air when our students were escorted to our destination on an actual MSU bus! We began our tour at the Union where we heard information about admissions and scholarship opportunities presented by MSU Admission Counselor John Hall Morgan. The importance of maintaining maintaining a good GPA was emphasized and the value of community service hours

was explained as a crucial component in making their college application more notable. The presentation also included the various majors offered at MSU, study abroad opportunities, and campus life activities.

Following the presentation, a walking tour of the campus was guided by the MSU Roadrunners (current MSU students). The tour included the Drill Field, the library, the football stadium, various education buildings, and the opportunity to see Grenada High alumni around campus. Our tour ended with an enjoyable complimentary lunch at the Perry Cafeteria.

Our focus at Grenada High School is to continue to bridge the gap between the classroom and the future career paths of the students. Our teachers and administration encourage each student to become involved in opportunities that can promote student success.
