GCTC Teacher

On Tuesday, November 14th, 2013, Dr. Ronnie White from Mississippi State University and Ms. Jan Walton from the Mississippi State Extension Service visited the Grenada Career and Technical Center Business Fundamentals and Marketing classes. They presented results from the Myers-Briggs test that the

students had previously taken. The MBTI instrument reports different personality types and categorizes them into four different preferences for the students.

The students took the test in October to learn more about their personality types and how they can apply them to careers in which they are interested. Dr. White presented each student a booklet with the results and showed them how to interpret them. The students enjoyed

learning their different personality types and discussing whether they agreed with the results of the assessment.

Ms. Walton then presented the students with information on college and career readiness. She gave them information about how to apply for scholarships, when to begin taking the ACT, and when to fill out the FAFSA. She also informed them of the many opportunities available at Grenada High School and in the

community to prepare them for college entrance. The students gained valuable insight to prepare them for college and career readiness.

Parent Center Offers Services...

The Parent Center, located within the Adult Education Building on Line Street (former Lizzie Horn building), offers a variety of services for parents and students. The Parent Center offers on-line access and assistance with five computers for students and parents to apply for college admission, assist with classroom projects, and research topics. The Center offers practical methods for parents to promote school readiness, foster involvement, and learn more effective parenting strategies. Information concerning college entrance tests and scholarship opportunities is also available. Parent Center hours of operation may vary; however, the Center is usually open M-F from 8 to 5. To ensure access to the Center, Call Myra Muirhead at 227-3370 for an appointment.
