

# GCTC Receives Improvements

The GCTC office, halls and classrooms received a makeover during the summer providing a bright, inviting environment for students. New lighting, dropped ceilings and new tile and color scheme will enhance the students experience at GCTC.

By: *Dr. Cliff Craven*  
GCTC Director

The summer is almost over and Grenada Career and Technical Center has spent the summer receiving a face lift. Since the middle of May the maintenance crew has been working to give the building a new look. Old tile has been removed, halls and classrooms painted, and the ceiling in the hallway lowered. Along with the remodeling in the hallways, many of the classes are being renovated as well. Everyone at the Center is very excited about the updated environment.

In order to facilitate increased GCTC enrollment, more flexibility has been incorporated into our scheduling to assist students in arranging schedules. This year we are going to pilot 1 hour programs in the afternoon for Welding, Construction Trades, Automotive Service, Information Technology and Teacher Academy. Based on preliminary numbers, we are looking at an increase in student enrollment of about 25%.

We are excited about the upcoming year not only for the building appearance, but also, the increased number of students we will have the opportunity to serve. The upcoming 2014-2015 school year holds the promise of helping more students reach their academic goals by choosing a career and technical class.
