The MTFC (Mississippi Tobacco Free Coalition) Youth Team held a summer event on June 18, 2015 at CVS Pharmacy in Grenada, Mississippi. Students made posters that were displayed at the pharmacy recognizing the decision the pharmacy chain made nationwide to no longer sell tobacco products. Tobacco facts were written on each poster to educate the public about the hazards of tobacco use.

In addition, all members met with CVS Manager James Ferguson, Mayor Collins, team sponsors, and GSD Business Manager Rodney Murphy. Following the event, the team members received gift cards from the American Lung Association and the Office of Tobacco Control for their efforts. All youth members will be a part of the Youth Mayor's Council beginning in August, 2015.

Growing a healthy Grenada.

Healthy people make strong communities. So at UMMC Grenada you'll find more than 15 kinds of specialty care, from pediatrics to women's services.

You'll also have access to transplant care, children's heart services and many other kinds of life-changing treatment from Mississippi's only academic medical center.

All in the community we call home.

Here for Grenada. Here for you.
